Safety in our venues...

Whilst moving around the venue, you must wear a face covering over your nose and mouth. **We can tell if you're smiling – we can see it in your eyes!**

Please keep to the one-way systems in place and maintain a safe distance from other guests. **It's like driving school revisited, only without the hill start and no three point turns!**

Keep your hands clean, wash them often and use the hand gel provided. **Please don't take it home with you, it'll strip the polish off your worktops!**

Avoid touching your face.
Save it for someone special
