## starter options

We have the latest Icon 700 video Conferencing/Live streaming technology from Lifesize® in all of our venues with the ability to live stream 4K Ultra-HD content.

This cost effective solution gives you options to host a video conference call for a small audience, live stream your event to a larger audience and record the lot for people to view later.

### We have three starter options for you to choose from:

#### Simply 'Plug & Play' - £170+VAT

Available at all studio locations this simple 'plug & play' set up offers HD quality video and audio. Position camera and microphone wherever you need them in the meeting room this system is compatible with all popular video conferencing solutions, including Microsoft Teams and Zoom – use them exactly how you normally would. *Suitable for small meetings of up to 20 'in person' guests.*

#### Video Conferencing - £250+VAT per day

Your very own small virtual meeting room our video conferencing solution is available at all studio locations. Participants can join from anywhere in the world with a compatible device with camera (e.g. laptop, mobile or tablet) with the system easily accessible remotely via browser, Lifesize app or any other dedicated video conferencing solution. You can also record your whole session for an additional £50+VAT. *Available for up to 25 direct participants*

#### Live Streaming - £500+VAT per day

Live stream your event to anywhere in the world! This solutions is available at all studio locations offering a straight forward single fixed camera and microphone. Features include 'Picture in Picture' mode to display presentations and presenter concurrently, 'Chat box' function for Q&A. Participants can join from anywhere in the world with a compatible device with camera (e.g. laptop, mobile or tablet) with the system easily accessible remotely via browser, Lifesize app or any other dedicated video conferencing solution. You can also record your whole session for an additional £50+VAT. *Available for up to 25 direct participants and 150 live streaming viewers*

## advanced options

Working in partnership with specialist AV provider Bryght we're proud to be able to offer our dedicated live streaming studio for clients who want to offer a more rounded production to their event.

Starting from £3,000+VAT per day this full production offer is perfect for a totally virtual event. Package features include the option for multiple speakers either in person or virtual, multiple breakout session, Q&A, polling and more.

What's more, it's totally mobile so can easily be moved into one of our larger spaces for a hybrid event with live audience.

Features include:

- Brandable 4m x 2m LED video wall
- 2 x Sony 4k cameras for close up and wide angle shots
- 2 x 55" comfort monitors for autocue, presentation view, view LED screen or view virtual speakers
- Adjustable washed and spot lighting
- 1 x dedicated technician
- Use of Hopin and Streamyard software for:
  - customisable branding
  - picture in picture
  - virtual panel discussions
  - caller holding
  - chat functions
  - Q&A sessions
  - additional virtual breakout sessions
- Up to 100 virtual participants (additional participants are an additional cost)

## bespoke options

If our fixed package options don't quite fulfil your requirements we can offer a range of bespoke options to suit all budgets so if it's a full 'television studio' style production you need just speak to us today.

Working with our partners Bryght across all of our locations we can tailor a package to your requirements.

The first step would be for us to arrange a consultation with our IT Director and partner AV team, who will discuss your requirements with you before building a bespoke package and quote.

Speak to us today to arrange your no obligation consultation.

## pre-event testing

For all of our starter options we are happy to set up a test virtual meeting room environment to allow organisers to run through the system and gain confidence in using it ready for the live event.
